### No other diagram software gives you all these

- Design and document based on a wide range of build-in shapes and examples.
- Our single user license allows one user to install the product on two computers as long as that user is the only user of the software.
- High quality product and reasonable price.
- Free upgrade in the lifetime and free technology support.
- In-depth tutorials to help you learn how to draw.

Easy to create great-looking **flowcharts, home floor, network diagrams, organizational charts** and more

## Edraw 4 New Features

- The UI is MS Office 2007 style like. Full ribbon features.
- Added Themes, Color Themes, Effects and Fonts. Easy to change the whole diagram by changing the active theme. With the new Theme feature, you can format the colors and effects in an entire diagram with a single click.
- Real-time previews. When you scroll over the various galleries in Edraw, you'll see your drawings and various objects change to display what they'll look like if you decide to apply those settings. Just click on the thumbnail in the gallery to actually accept the changes. This makes it a lot faster to see, for example, how changing a color scheme will affect your drawings.
- Quick layouts and quick styles. These provide quick formatting options for the object in question, and make it easy to create good-looking slides with just a few clicks.
- Put Edraw graphics into Word, Excel, PowerPoint with one-click buttons.
- Shadows in general are so very nice compared to those in previous versions. We can actually control the transparency, amount of blur, and color now.
- Shape and text presets make it really easy to apply a preset look to an object or text.
- Distinct colors, fonts, shapes, styles, pictures, text, and symbols are available for each diagram object.
- Easily visualize complex information with a wide range of diagrams. Make those diagrams even smarter and more useful by linking them to underlying data, which provides a more complete picture of the system or process.
- Works with MS Office well. It can be integrated with Microsoft Office application easily. The UI is MS Office-style like, it's easy to learn and use. If you are familiar with MS Office, you are familiar with Edraw quickly.
- Generics graphic formats support and WYSIWYG printing.

## Improved Symbols

## Why choose Edraw Max

- Use the diagramming software that best maps to what you know and where you're headed.
- Fully vector-based graphic software, which facilitates the rapid creation of flowcharts, organizational charts, network diagrams and more.
