

Amusement Rides

Roller Coaster

The Scenic Railway at Luna Park, Melbourne, is the world's oldest continually-operating roller coaster, built in 1912. A roller coaster is a type of amusement ride that employs a form of elevated railroad track designed with tight turns, steep slopes, and sometimes inversions.

The Ali Baba (or magic carpet) is a type of amusement ride consisting of a stationary horizontal gondola with a 360 degree swinging pendulum.

Ali Baba

Carousel

A carousel is an amusement ride consisting of a rotating circular platform with seats for riders. The "seats" are traditionally in the form of rows of wooden horses or other animals mounted on posts.

Bumper cars is the generic name for a type of flat ride consisting of several small electrically powered cars which draw power from the floor and/or ceiling, and which are turned on and off remotely by an operator.

Bumper Cars

Evolution

Evolution is a large thrill ride manufactured by FarFabbri in Italy. The original ride was manufactured in 1992 by Nauta Bussink (now Ronald Bussink).
