NEW SEMESTER
NEM STARTING POINT

WELCOME BACK TO SCHOOL

School is the cradle of talent cultivation, different from other enterprises and institutions and social organizations. It is the first base position to lay a good moral and cultural knowledge for the growth and future career of the students. Therefore, efforts should be made to improve the teaching quality and comprehensively implement the education goal. The leader must realize the scientific management of the school, and use and master the strategies and methods to realize scientific management. This must be combined with education scientific research to carry out special research on different degrees so that education research can be an effective way to combine the research into organic combination.
